Shareholders' equity as % of total assets	32.2%	31.8%	
Number of stores	160	160	0.0
Sales area in 000 m ² (based on BHB)	1,889	1,889	0.0
Number of employees	21,267	20,438	4.1

Rounding up or down may lead to discrepancies between percentages and totals. Calculation of percentage figures based on € 000s.

Summary

- HORNBACH Baumarkt AG Group posts record quarter despite temporary coronavirus-related restrictions on sales
- Consolidated sales up 18.4 % to € 1,492 million in 1st quarter of 2020/21 – like-for-like, currency-adjusted sales up 17.5 %
- Adjusted EBIT grows by 90.2 % to € 160.0 million
- Due to coronavirus-related risks, sales and earnings forecast for 2020/21 unchanged until further notice

The HORNBACH Baumarkt AG Group significantly increased its sales and earnings in the first quarter of 2020/21. Despite temporary restrictions on sales due to the coronavirus crisis, consolidated sales grew by 18.4 % to € 1,492.1 million (2019/20: € 1,260.7 million) in the first quarter of 2020/21 (March 1 to May 31, 2020). On a like-for-like basis and net of currency items, consolidated sales rose by 17.5 % in the first three months. This dynamic sales growth, accompanied by just a slight increase in expenses, led to a substantial jump in earnings. Operating earnings adjusted to exclude non-operating items (adjusted EBIT) increased by 90.2 % to € 160.0 million (2019/20: € 84.1 million). Earnings per Baumarkt share came to € 3.45 at the end of the first three months (2019/20: € 1.63).

Earnings, Financial, and Asset Position

Implications of the coronavirus pandemic for the DIY retail business

The sales performance of the HORNBACH Baumarkt AG Group in the first quarter (Q1) of 2020/21 was affected by the impact on business operations of measures taken by the authorities to contain the coronavirus pandemic. These varied widely between individual regions and localities. Reference is made to the explanatory comments provided under "Events after the balance sheet date" in the notes to the consolidated financial statements in the 2019/20 Annual Report.

To summarize: Most HORNBACH DIY stores and garden centers were consistently open to private and commercial customers during the lockdown starting in mid-March 2020. As April progressed, most of the temporarily closed stores were able to open once again. Restrictions lasted the longest in Switzerland and Slovakia, where we only resumed full operations at the end of April and the beginning of May 2020 respectively. The table below provides an overview of the duration and intensity of the restrictions on sales:

Country/Federal State	Period of closure for private customers	Number of stores	Major exemptions
Germany		96	
Bavaria	03.20. to 04.19.2020	14	Open to commercial customers; reserve and collect/delivery
Lower Saxony	03.23. to 04.03.2020	9	Open to commercial customers; reserve and collect/delivery
Saxony	03.23. to 04.20.2020	5	In some cases reserve and collect
Other Federal States in which HORNBACH operates	No restrictions on sales	68	
Other European Countries		64	
Austria	03.16. to 04.14.2020	14	In some cases reserve and collect /delivery
Czech Republic	03.14. to 04.09.2020	10	Open to commercial customers; reserve and collect/delivery
Luxembourg	03.16. to 04.20.2020	1	Open to commercial customers
Netherlands	No restrictions on sales	15	Amended opening hours
Romania	No restrictions on sales	6	Strict limits on customer totals
Slovakia	03.14. to 05.05.2020	4	Reserve and collect/delivery
Sweden	No restrictions on sales	7	
Switzerland	03.17. to 04.27.2020	7	Open to commercial customers; in some cases reserve and collect /delivery
Group		160	

Development in HORNBACH store network

We did not open any new DIY store with a garden center in the first quarter of 2020/21. As of May 31, 2020, the HORNBACH Baumarkt AG Group therefore operated 160 retail outlets (February 29, 2020: 160) with total sales areas of 1.89 million m², of which 96 locations in Germany and 64 in other European countries.

Seasonal and calendar-related factors

Overall, the first quarter of the 2020/21 financial year offered favorable weather conditions for implementing DIY projects. The first half of March was still characterized by changeable but mild weather. From mid-March to the end of May, it was then mostly dry and sunny.

In the first quarter of 2020/21, there was a group-wide average of 1.3 business days fewer than in the previous year's quarter. As many of our stores were severely restricted due to the coronavirus crisis, but not closed entirely, the number of business days has not been adjusted to account for the impact of the coronavirus.

Sales performance

The HORNBACH stores which remained open, and above all our online shops, reported substantial sales growth in the period from March to May 2020. This growth significantly overcompensated for the severe loss of sales at the stationary stores affected by the coronavirus lockdown in the first quarter of 2020/21. The monthly sales performance reflects the chronology of the gradual lifting in restrictions on sales in the affected catchment areas. In March 2020, consolidated sales almost matched the previous year's high level. In April, consolidated sales rose by around 17%. In May, group-wide sales then grew by around 36%. Against this backdrop, **consolidated sales** for the first quarter of 2020/21 grew by 18.4% to € 1,492.1 million (2019/20: € 1,260.7 million).

On a **like-for-like** basis and net of currency items [[↪ Brief Glossary on Page 7](#)], consolidated sales grew by 17.5% in the first quarter (2019/20: 7.8%). Including currency items for non-euro countries, namely the Czech Republic, Romania, Sweden, and Switzerland, we achieved group-wide like-for-like growth of 17.6% (2019/20: 7.8%).

Key data on the geographical sales performance in the first quarter of 2020/21 (March 1 to May 31, 2020) is as follows:

Germany region

- Net sales plus 23.6% to € 808.4 million (2019/20: € 654.1 million)
- Like-for-like sales growth of plus 24.4%
- Market share expanded thanks to accelerated outperformance of sector in Q1

Other European Countries region

- Net sales plus 12.7% to € 683.7 million (2019/20: € 606.6 million)
- Due to coronavirus, international share of consolidated sales falls from 48.1% to 45.8%
- Like-for-like, currency-adjusted sales growth of 10.3% – including currency items plus 10.4%

Earnings performance

The following comments refer to the earnings performance of the HORNBACH Baumarkt AG Group. Information about the "Retail" and "Real Estate" segments can be found in the segment report on Page 13.

In conjunction with more favorable cost ratios, the substantial sales growth in the quarter under report led operating earnings to significantly exceed the figures reported for the 2019/20 spring quarter. Key data on the earnings performance in the first quarter of 2020/21 is as follows:

- Gross profit rose by 17.2% to € 545.9 million in the first quarter of 2020/21 (2019/20: € 465.8 million). The gross margin eased from 37.0% to 36.6%. The moderate decline in the **gross margin** [[↪ Brief Glossary on Page 8](#)] was chiefly due to the structural change in the product mix given the increased share of overall sales attributable to the online business.
- Selling and store expenses showed a slight increase of 0.6% to € 330.9 million in the period under report (2019/20: € 328.8 million). The **store expense ratio** [[↪ Brief Glossary on Page 8](#)] fell by 390 base points from 26.1% to 22.2%. General and administration expenses rose by 3.4%, and thus significantly less rapidly than sales. As a result, the **administration expense ratio** [[↪ Brief Glossary on Page 8](#)] decreased from 4.4% to 3.9%. As a proportion of sales, total expenses (based on selling and store, pre-opening, and general and administration expenses) fell by around 450 base points.
- Due to the improvement in operating earnings, **EBITDA** [[↪ Brief Glossary on Page 7](#)] rose by 52.0% to € 216.0 million in the first quarter of 2020/21 (2019/20: € 142.1 million).
- Consolidated operating earnings (**EBIT**) rose by 90.2% to € 160.0 million (2019/20: € 84.1 million). As in the previous year, there were no non-operating earnings items in the first quarter of 2020/21. **Adjusted EBIT** therefore corresponds to EBIT.
- **Net financial expenses** improved from minus € 14.4 million to minus € 13.1 million. This figure includes positive currency items of € 0.3 million (2019/20: € 0.1 million).

- **Consolidated earnings before taxes (EBT)** [[↪ Brief Glossary on Page 7](#)] more than doubled from € 69.8 million to € 146.9 million (plus 110.5%).
- After a year-on-year increase in the tax charge, **consolidated net income** rose by 112.4% to € 109.8 million in the quarter under report (2019/20: € 51.7 million). **Earnings per share** are reported at € 3.45 for the first quarter of 2020/21 (2019/20: € 1.63).

Financial and asset position

Investments amounted to € 23.1 million in the first three months of the current financial year (2019/20: € 24.2 million). At € 16.4 million, around 71% of investments were channeled into land and buildings (2019/20: € 12.9 million), while the remainder involved plant and office equipment at new and existing stores, as well as intangible assets (mainly software technology).

The inflow of funds from operating activities rose from € 145.3 million in the previous year's quarter to € 380.9 million in Q1 2020/21. The figure for the quarter under report includes depreciation of € 37.5 million for right-of-use assets (2019/20: € 39.1 million). The outflow of funds for investing activities amounted to minus € 22.9 million. The previous year's figure of minus € 43.9 million included outgoing payments of € 20 million for financial investments made in connection with short-term liquidity management (reallocation of liquid funds to avoid negative interest rates). The outflow of funds for financing activities, amounting to minus € 34.9 million (2019/20: minus € 31.0 million), includes outgoing payments of € 34.8 million for the repayment of current and non-current lease liabilities (2019/20: € 34.6 million). Information about the financing and investing activities of the HORNBACH Baumarkt AG Group can be found in the cash flow statement on Page 12.

Total assets grew to € 3,840.2 million as of May 31, 2020, up 7.7% compared with the balance sheet date on February 29, 2020. This was mainly due to the sharp increase in cash and cash equivalents (plus € 321 million), which was accompanied by a slight decrease in right-of-use assets (minus € 39 million) and a € 20 million reduction in inventories. Shareholders' equity as posted in the balance sheet rose to € 1,237.1 million, up 9.3% compared with the previous reporting date. At 32.2%, the **equity ratio** [[↪ Brief Glossary on Page 8](#)] remained at a satisfactory level (February 29, 2020: 31.8%). **Net financial debt** [[↪ Brief Glossary on Page 8](#)] including current and non-current lease liabilities pursuant to IFRS 16 fell from € 1,573 million to € 1,220 million as of May 31, 2020. Excluding current and non-current lease liabilities, the Group reported net financial assets of € 28 million as of May 31, 2020 (February 29, 2020: net financial debt of € 290 million).

Other Disclosures

Employees

The HORNBACH Baumarkt AG Group had a total of 21,267 employees across Europe at the reporting date on May 31, 2020 (February 29, 2020: 20,438).

Statement of figures

Figures have been rounded up or down to the nearest million euro amount. Such rounding up or down may result in minor discrepancies between the various presentations. Percentages have been calculated on the basis of thousand euro figures.

Outlook

The full-year sales and earnings forecast for 2020/21 as published in the 2019/20 Annual Report continues to apply for now. In this respect, the Board of Management points to the ongoing considerable and hardly predictable macroeconomic risks resulting from the coronavirus crisis and to the risk of a renewed wave of infections, particularly in the second half of the 2020/21 financial year. In light of these risks, the company is currently upholding its previous assessment that consolidated sales for the 2020/21 financial year as a whole will approximately match the level reported for the 2019/20 financial year (Euro 4.4 billion) and that adjusted consolidated operating earnings (adjusted EBIT) will fall slightly short of the previous year's figure (Euro 181.8 million).

The forecast may be reviewed to account for the short and medium-term development in the COVID-19 pandemic and the macroeconomic framework. Unless the very pleasing trend in the company's business performance seen in the first quarter of 2020/21 is abruptly reversed in the further course of the year under report, the sales and earnings forecast for the 2020/21 financial year as a whole is very likely to be amended in the course of the year.

Brief Glossary of Key Performance Figures

In this quarterly statement we also refer to the following alternative key performance figures that are not defined under IFRS to comment on our asset, financial, and earnings position. These figures should also be viewed in the overall context of the information published in the Annual Report concerning the Group's management system.

<p>Like-for-like sales net of currency items (change in %)</p>	<p><i>Alternative key performance figure to measure the operating business performance and indicate the organic growth achieved by our retail activities (stationary stores and online shops)</i></p>	<p>The calculation of like-for-like sales is based on all DIY stores with garden centers that have been in operation for at least one full year. No account is taken of stores newly opened, closed, or subject to substantial conversion measures in the past twelve months. Like-for-like sales are calculated excluding sales tax (net) and based on the local currency for the reporting period under comparison (currency-adjusted). The rate of change in like-for-like sales net of currency items is therefore a performance indicator independent of exchange rate factors. On a euro basis, like-for-like sales are also calculated including currency items for those countries in our European store network that have currencies other than the euro.</p>
<p>EBITDA</p>	<p><i>Alternative key performance figure to comment on earnings performance</i></p>	<p>EBITDA stands for earnings before interest, taxes, depreciation and amortization (on property, plant and equipment and on intangible assets). EBITDA is a cash flow-based figure, as depreciation and amortization, which do not impact on liquidity, are added to operating earnings (EBIT).</p>
<p>Adjusted EBIT</p>	<p><i>Major key performance figure to comment on operating earnings performance</i></p>	<p>To calculate this key figure, EBIT is adjusted to exclude non-operating earnings items. Non-operating expenses (e.g. impairment losses on assets, expenses due to discontinuation of projects) are added to EBIT, while non-operating income (e.g. income from disposals of properties, income from write-ups of assets impaired in previous years) are deducted. Adjusted EBIT is therefore particularly useful for management purposes and for comparing the operating earnings performance over time or in forecasts.</p>
<p>EBT</p>	<p><i>Alternative key performance figure to comment on operating earnings performance</i></p>	<p>Given IFRS 16 lease accounting, consolidated earnings before taxes (EBT) are becoming increasingly important as an alternative key performance figure. EBT is the key earnings figure that shows the impact on the income statement of IFRS 16 effects; these comprise depreciation of right-of-use assets and interest expenses for financial debt.</p>

Cost ratios

Alternative key performance figures for the development in store, pre-opening, and administration expenses as a percentage of net sales

The store expense ratio is obtained by dividing selling and store expenses by net sales. Selling and store expenses comprise those costs incurred in connection with the operation of stationary DIY stores with garden centers and the online shops. They mainly include personnel expenses, advertising expenses, and general operating expenses (such as transport expenses, service and maintenance), as well as depreciation and amortization.

The pre-opening expense ratio is calculated by dividing pre-opening expenses by net sales. Costs incurred in connection with and upon the construction of a new stationary DIY store with a garden center through to opening are reported as pre-opening expenses. Pre-opening expenses largely comprise personnel expenses, costs of supplies and disposal, and administration expenses.

The administration expense ratio is the quotient of administration expenses and net sales. Administration expenses include all administrative expenses incurred in connection with the operation or construction of stationary DIY stores with garden centers and with the development and operation of online retail (e-commerce) and which cannot be directly allocated to such. They mainly consist of personnel expenses, legal and advisory expenses, depreciation and amortization, costs of premises, and IT, travel, and vehicle expenses. As well as purely administrative expenses, they also include project-related and digitalization expenses.

Equity ratio

Alternative key performance figure to comment on asset position

The equity ratio is derived by dividing shareholders' equity as reported in the balance sheet (equity posted) by total capital (balance sheet total).

Net financial debt

Alternative key performance figure to comment on financial position

This key figure is calculated as total current and non-current financial debt less cash and cash equivalents and – where applicable – less current financial assets.

Gross margin

Further key performance figure to comment on earnings performance

The gross margin is defined as gross profit (net balance of sales and cost of goods sold) as a percentage of net sales. This key management figure is chiefly influenced by developments in procurement and retail prices, changes in the product mix, and currency items resulting from international procurement.

Income Statement

€ million	1 st Quarter 2020/21	1 st Quarter 2019/20	Change in %

DISCLAIMER

This interim report contains forward-looking statements based on assumptions and estimates made by the Board of Management of HORNBACH. Statements referring to the future are always only valid at the time at which they are made. Although we assume that the expectations reflected in these forecast statements are realistic, the company can provide no guarantee that these expectations will also turn out to be accurate. The assumptions may involve risks and uncertainties which could result in actual results differing significantly from the forecast statements. The factors which could produce such variances include changes in the economic and business environment, particularly in respect of consumer behavior and the competitive environment in those retail markets of relevance for HORNBACH. Furthermore, they include a lack of acceptance of new sales formats or new product ranges, as well as changes to the corporate strategy. HORNBACH has no plans to update the forecast statements, neither does it accept any obligation to do so.
